#triLiftBeliever

Saggy jawline?
Drooping cheeks?
Saggy lower eyelids?
Stubborn wrinkles?

triLift addresses all 3 key elements of aging:

Muscle

Skin

Volume

A FACE LIFT-LIKE EFFECT

No Injections

No Surgery

Tone Your Face Like You Tone Your Body

Did you know?

Our muscle mass declines by 3-5% and our face loses its youthful appearance, with every decade after the age of 30.

Finally you can go beyond the skin and address one of the root causes of aging
THE FACIAL MUSCLES!

**TriLift can be used as a comprehensive full-face treatment or targeted for specific areas, such as around the eyes. You can also enhance your experience by combining it with IPL or opting for microneedling alone.

How does triLift work?

STEP 1

Lift and Tone

Your providers will tone the facial muscles using DMSt & RF (~10 mins per side)

STEP 2

Wow!

See the lift-like effect and don't forget to take a selfie!

STEP 3

Smooth and Volume

Your provider will volumize, and smooth your skin using triFX ultrathin needles (~ 10 min).

What should I expect?

triLift effects are quick and visible! A course of 4-6 weekly treatments is recommended for best results.

Only 20-30 minutes per session!
Depending on your treatment plan.

triLift is right for you!
No matter what your age, complexion, or skin type is.

A 3-in-1 Treatment!

1

Dynamic Muscle Stimulation (DMSt)
For a toned and lifted look.

2

TriPollar RF
For collagen regeneration, elasticity, and dermal thickening

3

triFX RF Microneedling
X3 more natural production of Hyaluronic Acid²
